

# ONLINE SHEEP DISCUSSION GROUP MEETING

After the success of our online discussions on antibiotic use, lameness and abortion, we would like to invite you to our fourth and final meeting in this mini series...

## Sheep nutrition and how to prevent disease

Wednesday 11<sup>th</sup> November, 1pm

*Nutritional management of the breeding ewe to reduce medicines use*

- ✓ Improving lamb performance through better ewe nutrition
- ✓ Top tips for feeding the pregnant ewe
- ✓ Preventing common sheep diseases
- ✓ The benefits of forage analysis

*Ewe are what  
you eat...*

This new online format is being piloted by Flock Health Scheme members, but call the surgery if you're not a member to find out more about accessing these meetings or to join the scheme

Committed to long term partnerships supporting British livestock farming.
